## **5. Student Exchange and Study Abroad Approach**

Students may undertake a Student Exchange Program with an Overseas Exchange Partner as agreed through overarching agreements and Memorandums of Understanding (MOU). Student Exchange Programs are normally short term, ranging in duration from one semester to one year. Students are expected to have achieved a credit average or above and completed two semesters of study at the Institute prior to undertaking the exchange program. The Student Exchange or Study Abroad Program must relate to the program of study, and enhance the opportunities available at the Home Institution. The Institute and its host partners will ensure students participating will have the best opportunity to benefit through academic credit, or work and life experiences that will potentially enhance the student's career prospects and professional development.

## **6. Applications for Study Abroad or Student Exchange Programs**

The Institute Students who wish to be considered for a Study Abroad or Student Exchange Program need to make a formal application to the Senior Academic Manager at least one semester prior to the intended start of the Program. The application must contain a "Study Abroad and Student Exchange Application Form". Students will be notified within 14 days of the application whether the application has been approved.

Where students are dissatisfied with the outcome of the application they may appeal the decision to the Dean of the Business School or the Dean of the Law School (as appropriate) within 14 days of receiving notification of the decision of the Senior Academic Manager. The Dean will then make the final determination within 14 days of receiving the appeal. The Dean's decision will be final and no further avenue for appeal will be available.

## **7. Expenses**

Students will be responsible for all expenses involved in the exchange or study abroad program including, but not limited to, airfares, accommodation, visas, cultural activities, and study materials. Students undertaking study abroad may be required to pay tuition fees directly to the host institution.

The Institute students undertaking an exchange program will only have tuition fees refunded in the following circumstances:

- Cancellation of the exchange program;
- Where the student cannot proceed due to family responsibilities or illness (supporting documentation such as a medical certificate will need to be provided);
- Student withdrawals prior to the Census date.
